

MINI-COLLECTION OF FRUIT TOWNS

Larry Patterson, PSS 5007

Gerri Lorenzo, a former member of PSS provided a list of towns that include a fruit in their names. Her list was published in the May 1993 issue of *The Forum*. I found a few more towns and corrected the state in which one or two are located. This mini-collection contains the names of 82 towns. If you wanted to include variations of the word “fruit” or more compound words containing a specific fruit, you could add a few more town names.

Some people might want to exclude a few of these towns, such as Pea Ridge, AR, because the name is more “vegetable” than “fruit.” I thought there would be some vegetable towns that included the word “potato” or “turnip,” but did not find them or any others named for some of the popular vegetables, like tomatoes, carrots, celery, or lettuce. Cornland, IL, seems to be as close as it gets for vegetable names.
